

# Van Gogh Sky

Vincent Van Gogh created some expressive skies in his paintings. Each one seems to be a mini-masterpiece. On this notebook page you will find several of his colorful, energetic, and living skies close-up.

Each of the paintings can be found on the Summer Art Show Pinterest Board. <http://pinterest.com/harmonyfinearts/summer-art-show/>

Observe the way Van Gogh created each sky and try to imitate his style in your own painting to go along with this notebook page.

What words would you use to describe the Van Gogh skies? Try to think of six words and write them here in this box.
